ELECTROSURGERY

ELECTROCAUTERIES

FIAB sterile cautery pens feature perfect haemostasis with fast and effective precision cauterization of small blood vessels. Being powered by an internal long life battery, they are extremely easy to handle; several models are available, different from each other for working temperatures (1200°C, 800°C and 600°C), shape, thickness and length of the cautery tip. The available range allows to choose a cautery pen that perfectly matches the clinical demands of the procedure.

Disposable electrocauterics

High temperature

F7244	28 mm fine tip
F7266	28 mm large tip
F7234	75 mm fine tip
F7277	125 mm fine tip

Medium temperature

F7288	28 mm thick tip
-------	-----------------

Low temperature

F7255	28 mm fine tip
F7255UF	28 mm ultra fine tip

- F7298FG long fine tip, 120 mm, suitable for F7299

NERVE STIMULATOR

Neuropacer

- F1745 Disposable, sterile, battery operating, complete with active electrode and grounding needle

DEFIBRILLATION

EURO DEFI PADS

Euro Defi Pads: a complete line of disposable multifunction electrodes for defibrillation, synchronized cardioversion, external cardiac stimulation and ECG monitoring. Easy to be used, they allow simple but specific and optimal clinical performances both in emergency cases and for elective uses. Thanks to the high quality of the solid gel, to the excellent adhesivity and to their particular shape, Euro Defi Pads perfectly stick to the patient's skin and grant an homogeneous and uniform distribution of the current on all the conductive surface of the pad.

The right length and the safety antishock connector allow the direct connection - without any adaptor- to the devices of the main defibrillators brands, that nowadays are present on the market. Euro Defi Pads are compatible with monophasic and biphasic defibrillators (manual, semi-automatic and automatic) and they comply with European Directives and International Standards (ANSI/AAMI DF-80, IEC/CEI/EN 60601-2-4, 60601-1, ISO10993-1, FDA 510K).

Adult Radiopaque series (e.g. F7950) are intended for patients over 8 years of age and with more than 55 pounds (25 kg) of body weight.

Besides Adult series, the **Paediatric Radiopaque series** is available too (e.g. F7952P); it is intended for patients under 8 years of age and with less than 55 pounds (25 kg) of body weight.

Some paediatric models are also available in "reduced energy" version: they're equipped with a power reducer which allows to use them with AED (e.g. F7952PL).

Lead-out models (e.g. F7955W) present the cable and the terminal connector outside the pouch, allowing to connect pads to the defibrillator before opening pouch; they have been intended especially for emergency situations, in order to save time and make more safe procedures.

Radiotransparent models (e.g. F7751) have been optimized for use in EP labs, haemodynamics, during radiographic and angiographic procedures and in emergency rooms.

PATIENT CABLES

In order to meet every customers' demand, FIAB produces a very wide range of ECG patient cables. Patient cables can be provided with 4 mm plugs, snaps or pinches at one side; at the opposite side of the cable many different connectors can be assembled in order to allow the connection with the most part of devices present on the market.

For each model the version with protection from defibrillator discharge is also available.

4 mm PLUGS

SNAPS

PINCHES

**INSPECTABLE
MANIFOLD
F5000 SERIES
(SNAP)**

Patient cables with inspectable manifold

ECG patient cables with inspectable manifold allow the customer to repair and substitute each lead without replacing the whole cable. We can find three main families of models:

- 1) F6000 series, with small manifold and 4 mm plug connection;
- 2) F6000P series, with small manifold and pinch connection;
- 3) F5000C series, with large manifold and snap connection.

**INSPECTABLE
MANIFOLD
F6000P SERIES
(PINCH)**

**MOULDED
MANIFOLD
F8000 SERIES
(PLUG)**

Patient cables with moulded manifold

ECG patient cables with moulded box do not allow to repair or substitute each lead. They are provided with 4 mm plug at one side, while the other side can be provided with many different connectors, able to be directly connected to most of the devices present on the market.

F5388/KIT

F5376/KIT

F5399/KIT

Accessories

Kits of 10 unipolar leads composed of:
 - 6 leads 100 cm long
 (colours: red, yellow, green, brown, black, violet)
 - 4 leads 120 cm long
 (colours: green, yellow, black, red)

- F5377/KIT 4 mm plug connectors, without protection
- F5388/KIT 4 mm plug connectors, 4,7 KOhm protection
- F5388R/KIT 4 mm plug connectors, 10 KOhm protection
- F5376/KIT pinch connectors, without protection
- F5386/KIT pinch connectors, 4,7 KOhm protection
- F5386R/KIT pinch connectors, 10 KOhm protection
- F5399/KIT snap connectors, without protection

Accessories for bridge electrodes

F8973/4KIT	Replacement kit, for adults (*)
F8973/4PKIT	Replacement kit, paediatric (*)
F8901/1	Connecting cable, L=100 cm, from alligator to 2 mm male TP
F8901/2	Connecting cable, L=100 cm, from alligator to 1,5 mm female TP
F8901/3	Connecting cable, L=100 cm, from 2 mm spring plug to 1,5 mm female TP

F8901

(*) Each kit is composed of 1 cone, 100 cotton covers and 100 rubber rings

EEG CUP ELECTRODES

F8911/LCS

F8911/LCG

Reusable SSC (Ag/AgCl) electrodes

F8911/SS	Ag/AgCl, D=10 mm, die-cast cup, 150 cm wire, 1,5 mm DIN socket
F8911/LCS	Ag/AgCl, D=10 mm, heat sealed cup, 150 cm wire, 1,5 mm DIN socket
F8911/SS	Ag/AgCl, D=6 mm, heat sealed cup, 150 cm wire, 1,5 mm DIN socket

Reusable gold-plated electrodes

F8911/GO	Ag/Au, D=10 mm, L=150 mm, 1,5 mm DIN socket, die-cast wire
F8911/LCG	Ag/Au, D=10 mm, L=150 mm, 1,5 mm DIN socket, heat sealed wire

ATTENTION

Models with die-cast wires are supplied with blue, green, yellow, red and black wires (5 different colours inside each pouch). Models with heat sealed wires have a grey wire instead of blue one

EAR ELECTRODES

F8971

F8971 - Ear electrodes

F8971/SI	Sintered Ag/AgCl, L=100 cm, 1,5 mm DIN socket

SPECIAL PRODUCTS

Conductive accessories

PG1010-PG1011 - Facial conductive masks complete with Velcro fastening system

- PG1010 Ionophoresis mask, synthetic buckskin, pouches for 50 x 50 mm electrodes
- PG1011 Electrostimulation mask, synthetic buckskin and conductive cloth, double snap connection

Grounding electrodes

- PG1020 bipolar (double snap connection)
- PG1030 unipolar (single snap connection)

PG1021-PG1031 - Synthetic buckskin insoles

- PG1021 for bipolar conductive slippers
- PG1031 for unipolar conductive slippers

PG1040 - Pair of conductive gloves

- PG1040/M single snap, medium size
- PG1040/L single snap, large size
- PG1040C2/UNI double snap, one size

PG1050 - Pair of conductive socks

- PG1050/UNI electrostimulation socks

Grounding electrodes

PG94X/28 - Reusable grounding bracelets

- PG940/28 Anti-static bracelet, snap, length 28 cm
- PG941/28 Anti-static bracelet, coupled with synthetic buckskin, snap, length 28 cm
- PG942/28 Elastic bracelet, snap, length 28 cm

F9024SSC - Reusable grounding clamp electrode

- F9024SSC Silver Silver/Chloride sensor, for adults

F7805 - Disposable grounding pads

- F7805 For adults, solid gel, FOAM support, 202x101 mm, tab
- F7805P Paediatric, solid gel, FOAM support, 148x90 mm, tab

OXYGEN THERAPY

MASKS

FIAB designed a complete and multifunctional range of masks to fulfill any clinical need; these masks are soft, light, odourless, made from high quality resins; the adjustable mask straps and nose clip create a better and more comfortable fit for the patient.

OS/50

OS/50 - High concentration soft mask with bag and sure flow tubing

- OS/50 for adults
- OS/50D for adults, DEHP free
- OS/50P paediatric
- OS/50PD paediatric, DEHP free

OS/50P

OS/100

OS/100 - Medium concentration soft mask with sure flow tubing

- OS/100 for adults
- OS/100D for adults, DEHP free
- OS/100P paediatric
- OS/100PD paediatric, DEHP free
- OS/100N neonatal, DEHP free
- OS/100T tent mask for adults

OS/100P

OS/100T

OS/70K

Venturi mask with sure flow tubing and 7 different oxygen flow diluters

- OS/60K for adults
- OS/60KD for adults, DEHP free
- OS/70K paediatric
- OS/70KD paediatric, DEHP free

OS/60K

OXYGEN THERAPY

OS/62K

Venturi mask with sure flow tubing and "all in one" oxygen flow diluters

OS/62K	for adults
OS/62KD	for adults, DEHP free
OS/72K	paediatric
OS/72KD	paediatric, DEHP free
