- ◆ For adult, pediatric and neonatal

CE 2409

ISO 13485

Mounting solutions for UVENT-M-S ventilator

System for ambulance

A special mount for the ambulance is attached to the universal VESA plate on the back panel of the ventilator.

The system ensures reliable fixation of the UVENT-M-S ventilator in the correct position for transportation.

Mount for medical rail

Special handle with hook for fixing UVENT-M-S ventilator on a medical rail.

Mount on a cart

Mobile ergonomic trolley with basket for accesories, handy handle, fixing wheels, patient circuit hanger, mount for humidifier, and electric splitter.
